LEASE OF THE HAWAHAN HOTEL AT HAWAIIAN GAZETTE AN INDEPENDENT JOURNAL.

> DEVOTED TO HAWAHAN PROGRESS. PUBLISHED AND EDITED BY HENRY M. WHITNEY.

GEORGE H. DOLE, ASSOCIATE EDITOR. WEDNESDAY, JUNE 27, 1877.

WE understand that His Excellency Henry A. Pierce, American Minister resident, has received his recall, and will soon be succeedsaid to have adopted the old Jeffersonian rule qualifications for the position. This is civil service reform of the Jacksonian order. In some instances, such changes are wise; but the custom followed by the British government of take acknowledgments to Contracts for Labor in the Dis. retaining in office foreign representatives and

other office-holders as long as they render the number of the Turkish troops on the banks efficient service, is, after all, the one which of the Danube and in the Balkan Mountains has given to that nation its extraordinary at nearly 200,000 men, who, with the excep- on the 18th, 19th, and 20th, insts., and would exstrength and power. Frequent changes of | tion of a lack of artillery, are well armed, but | press their eminent satisfaction with the evidences public officers weaken a government, while show a deficiency in organization. Their afforded throughout of thorough drill and orderly a continuance of efficient servants insures per- fortresses he describes as very strong. On discipline. manency and strength. We have not learned the 5th instant the Turks opened a fire from The recitations, though less showy than is often how soon Gen. Comly may be expected, but the batteries in the heights in the rear of the case, were yet excellent; and all the exercises

THE fine steamer "City of San Francisco,"

while in charge of Captain Waddell, was lost on the morning of May 16th, by striking on a rock a short distance from the port of Acapulco, Mexico. The rock is known as Tartar Rock, having been surveyed in 1860 by H. B odas Tax M's, ship Tartar. The breakers on it were seen by both Captain Waddell and his first officer, who were on the bridge at the time, and the steamer's course was altered to clear the danger, but in taking the new track, which was supposed to be safe, the ship struck on a rock near by, which tore a long rent in her, causing her to fill rapidly. The ship's course was headed for shore, 13 miles distant, but she sank in four fathoms, four miles from land, every passenger having been safely transferred to the boats and rafts, which were lowered and manned in the most orderly manner. It speaks well for a captain and his officers, and the discipline on ship board, when 240 souls can be safely landed under such circumstances without a single loss of life or accident. This is chiefly owing to the extraordinary discipline and order introduced on the ships of the Pacific Mail Company, and particularly of this steamer. We are told that on every trip of the City of San Francisco, than ever dreamed of a few months ago, canwhile under Captain Waddell's charge, not not be doubted by any reasonable man. It is Application has been made to this Department for the only was every passenger assigned his berth Lease of Kalosha, Au and Laskau, Hamakua, at \$90, by boat in case of accident at sea. Every officer, Furchase of remnant of Kamalli, Puns, at \$100, by D. Passenger, sailor, and fireman had his place assigned in a boat which was numbered, and this information was given to each one. This strict discipline will account for every person Purchase of remnant of Government Lands in Opinikan, on the City of San Francisco having been base, at \$490, by Z. M. Naahumakus and others. Lease of remnant of Lands in Pa o Hamakahogu, Kona, saved; and the Company as well as Captain or K. Simeous, at \$10. Waddell, who was the last person to leave the ship, deserve this honorable mention. Perchase of Koamano, Lambula 1 and 2, and Kibalani, The rock on which the vessel struck will prohase of To acres in Honolulu, Puna, by J. K. Ka- bably be found to be a spur like Tartar Rock, but located some distance further out from the

Lones of Rakoa, adjoining Laupahoehoe on the Hama-ua side, by T. H. Davies, for \$15. WE must "take exceptions" to the statement made in the last P. C. Advertiser that "there is no such provision in the revenue laws of the United States as the section of the Hawaiian Penal Code under which the recent decree of forfeiture of an American ship has been rendered." If the writer had taken the trouble to make a little investigation he would ascertained that according to the provisions of to have come originally from New Caledonia. the 50th section of the Collection Act of 1799. As near as we can ascertain, Mr. Oudinot, an of the United States, if any goods shall be unladen within the United States from a vessel arriving from a foreign port, without a permit from the collector of the port, there shall be a personal penalty on the master, and if the value of the smuggled goods shall exceed \$400.00 there shall be in addition a forfeiture of the vessel. The same section also provides the same penalty for unlading a vessel after the same penalty for unlading a vessel after the same section also provides the captain to give him a small piece, and was made the recipient of three sticks, which was all the captain had. He planted it in his garden, and it speedily gained a reputation among the natives as a delicious eating cane, and for a time Mr. Oudinot detection to give him a small piece, and was made the recipient of three sticks, which was all the captain had. He planted it in his garden, and it speedily gained a reputation among the natives as a delicious eating cane, and for a time Mr. Oudinot detection to give him a small piece, and was made the recipient of three sticks, which was all the captain had. He planted it in his garden, and it speedily gained a reputation among the natives as a delicious eating cane, and for a time Mr. Oudinot detection to give him a small piece, and was made the recipient of three sticks, which was all the captain had. He planted it in his garden, and it speedily gained a reputation among the natives as a delicious eating cane, and for a time Mr. Oudinot detect the supreme court, at the Court and was made the recipient of three sticks, and was made the recipient of three sticks. Hondius at which time and place and show cause, if any they have, why the prayer of said petules should not be granted; had it in his garden, and it speedily gained a reputation among the natives as a delicious eating cane, and for a time Mr. Oudinot detect the supreme court, at the Court and was made the recipient of three sticks, may appear and show cause, if any they have, why they have, why they have, and it is the supreme court.

Law I and the captain to give him a small piece.

July Term of the supreme court an arriving from a foreign port, without a permit the same penalty for unlading a vessel after dark, where the value of the goods is \$400.00 or over. And for many other violations of the revenue laws, not only according to the statutes of 1799, but according to the most recent laws on the subject, the same penalty attaches.

The decision rendered by a majority of the Supreme Court on Monday last, in the matter of the Mary Belle Roberts, sustained in every particular the decision of Justice Judd, and indeed from the explicit nature of our smug-

The War News.

THE intelligence received from Europe by the brig Hesperian on Sunday, is not of a startling nature. Reports are somewhat contradictory, and, as newspaper correspondents are not allowed facilities for gathering information from either army, it is to be presumed that many which reach us are entirely false. We gather the following resume from the tele-

graphic dispatches: Ardahan was re-captured by the Turks by a coup-de main after a junction had been effected between its former garrison and a reinforcement from Batoum which met on the road between the two towns. The Turkish Government has decided to admit foreigners to its service, and a number of English noblemen have applied for situations in the army. Affairs at Constantinople are daily assuming a more sombre aspect. Mahmond Damond Pasha proposes to draft all the Softas into the army, and desperate preparations are said to be in progress for pushing operations on the Circassian Coast of the Black Sea, and extending them as far as the sea of Azoff.

In European Turkey there are reported Turkish successes in Montenegro where it is said that the army of the Sultan has captured a number of important positions, with great loss to the brave mountaineers.

A ministry has at last been formed at Athens, with Canaris at its head, and, as he represents all parties, a more energetic and united action is anticipated on the part of the Greek Government. In view of the warlike preparations in that country, the Turkish Government has armed the Mohammedan population of the provinces bordering on the tug Consul. Therefore, all persons are requested to give been in service four years, regardless of their Greek frontier, and we may expect to hear of the perpetration of acts of fanatical violence from that region.

> > > Sugar.

The cultivation and manufacture of sugar has for many years been the leading industry of this Kingdom, and that it will grow rapidly during the coming years, and in the rapidly during the coming years, and in the common of this common of this common of the complete the full course of this Institution before leaving for others in the United States.

Respectfully submitted,

(A.O. Formes. has for many years been the leading industry of this Kingdom, and that it will grow rapidly during the coming years, and in the apparent that Sugar is destined most en phatically to be "King," to use an hackneyed phrase, and in importance, and the magnitude SUPREME COURT OF THE HAWAHAN of its influence, to overshadow every other local industry.

Sugar interest during the last few years it is well known that many improvements have, been effected both in the cultivation and manufacture of the sacchariferous product. The introduction of a new variety of cane which introduction of a new var well known that many improvements have " is remarkable for the extreme richness of its | Honolalu, 23d June, 1874, 659 it juice, its density generally averaging from 11° to 12° Beaume, where other varieties of SUPREME COURT OF THE HAWAHAN land. The U. S. ship Lackawanna has been cane would give a density of from 5 ° to 10 °, ordered to survey the locality, and we hope has largely increased the profits without any corresponding increase of expense, and has undoubtedly benefitted, and will benefit, the country to the extent of millions of dollars. This variety of cane, known on these islands as "Lahaina Cane," is now being rapidly disseminated all over the country, and in almost every locality maintains its popularity.

It was brought to Lahaina about the year 1854 in a whaleshin from Tahiti, and is supposed in a whaleshin from Tahiti, and is supposed. in a whaleship from Tahiti, and is supposed old resident of Lahaina, seeing a few sticks of cane of a new variety on the whaleship, begged the captain to give him a small piece, rived quite a revenue from its sale at ten cents a stick, from which fact it became known in that village as "ko kenikeni," or SUPREME COURT OF THE HAWAHAN "ten cent cane." It was tried by one of the plantations in the place, and its superiority

intimate acquaintance with the modes and practices of other countries, and we would suggest the propriety of sending a commissioner from here to visit all such places and make a fall and minute report of all improve ments which we might advantageously imitate, as well as such errors and practices as it would be well for us to guard against. New discoveries of value are being constantly made whereby the complex process of sugar manufacture is simplified and cheapened. An Englishman, it is said, has lately invented an arrangement in which, by an application of electricity to the cane juice, the gum is neutralized or decomposed, and the result of which is that the whole product is converted into sugar without any residuum of molasses, adding at the least calculation ten dollars to the value of every ton of sugar. The method has been thoroughly tested in the West Indies.

An Australian newspaper, the Ipswich Observer, announces that a Mr. Eastes, of Beenleigh, has been able to make sugar without leaving any molasses. He is said to have tested his process at Dart's Mill, near Brisbane, and to have obtained 2,400 pounds of beautiful white sugar from 1,900 gallons of rattoon juice, 10 ° Beaume. The only waste product was some water. Unfortunately, no description of the process is given, and it is possible that there is nothing in it, but it is probable that with the advance of chemical science many new and important discoveries will be made in the manufacture of sugar, and it behooves us to be vigilant, and keep up with the age, and we know of no way in which this can be accomplished more satisfactorily than in the manner above indicated. "All is quiet" on the Danube, so far as any
